STATE CLEARINGHOUSE

NEWSLETTER

August 16 through 31, 2001

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **August 16 through 31, 2001**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Kids, make "Turn it Off" signs for the light switches at home.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

There are no planning or CEQA cases to report for the period of August 16 - 31, 2001.

Federal Notices

Intergovernmental Review Notices (August 16th - 31st, 2001)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

Agency: Federal Energy Regulatory Commission

Contact: David Boergers

Telephone: (202) 208-2474

E-mail: N/A

Address: 888 First St. N.E., Room 1A, Washington, DC 20426

Description: The Commission and the California State Lands Commission (CSLC) have issued a notice of intent to prepare a joint environmental impact statement and report that will discuss the environmental impacts of Kern River Gas Transmission Company's proposed Kern River 2003 Expansion Project. The project is a proposed expansion of an interstate pipeline system that runs from Wyoming to California (CA). Proposed facilities include: approximately 716 miles of 36- and 42-inch-diameter pipeline (including 185 miles within CA), three new compression stations (none in CA), modifications to six existing compressor stations (1 in San Bernardino County, CA), and modifications to 5 existing meter stations (2 in San Bernardino County and 1 in Kern County, CA). The Commission will be the lead Federal agency in the preparation of the EIS/EIR while the CSLC will be the State Lead Agency for California. The proposed project is located from Wyoming, through Utah and Nevada, and crosses San Bernardino County into Kern County, California. When contacting the Commission refer to docket number CP01-422-000.

Comment By: September 24, 2001

Agency: Federal Energy Regulatory Commission

Contact: Diane M. Murray

Telephone: (202) 219-2682

E-mail: Diane.murray@ferc.fed.us

Address: 888 First St. N.E., Washington, DC 20426

Description: The Palmdale Water District has filed an application for Declaration of Intention for the Palmdale Hydroelectric Facility located within the County of Los Angeles, California, on the Palmdale Water District's turnout on the California Aqueduct. The project does not occupy Federal or Tribal land. The Declaration of Intention requires the Commission to investigate and determine if the interests of interstate or foreign commerce would be affected by the project. (Docket No. DI01-8-000)

Comment By: September 23, 2001

Agency: United State Department of the Interior, Fish and Wildlife Service

Contact: Michael Fris or Stephanie Brady

Telephone: (916) 414-6600

E-mail: Fw1splittail@fws.gov

Address: Field Supervisor, Sacramento Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2800 Cottage Way, Suite W-2605, Sacramento, CA 95825

Description: The Service has re-opened the comment period for the Sacramento splittail (*Pogonichthys marolepidotus*). The splittail is a silvery-gold member of the minnow family. The Service originally listed the splittail as a federally threatened species on February 8, 1999, based on primarily on the determination that reclamation and modification of the rivers and flood basins had reduced the amount of habitat available for the species to feed, migrate, and reproduce. The Service is soliciting peer review of the revised statistical analyses of abundance and to re-solicit comments on the status of the species. Also, they are seeking comments on the relationship between data available and the listing of the species as threatened, the current and future potential threats to the splittail, and existing measures that may minimize those threats.

Comment By: October 1, 2001

Agency: U.S. Forest Service

Contact: Roland Shaw

Telephone: (775) 882-2766

E-mail: N/A

Address: 1535 S. Carson St., Carson City, NV 89701

Description: The Forest Service, Humboldt-Toiyabe National Forest, Carson Ranger District, proposes to construct a fuelbreak within the Crystal area located in Sierra County, California near the town of Verdi, Nevada. The project would include approximately 271 acres wherein standing and fallen dead trees are cut and bucked, overstocked conifer seedlings are thinned, and competing bush is removed from around the remaining seedlings. Concentrations from the project will be piled and burned when proper conditions are met.

2000062025	<p>U.S. 101 Widening Project (Bernal Road to Cochrane Road) Caltrans #4 San Jose, Morgan Hill--Santa Clara</p> <p>The project consists of widening Highway 101 and included in that will be a bridge widening to accommodate the HOV ramp at the existing Coyote Creek crossing. New bridges will be attached to existing bridges for both the northbound and southbound directions of the freeway, so that each will be three piers wide instead of two as currently exists. A total of four new piers will be constructed, all outside of tributary waters. Work will require removal of vegetation under bridges, construction of false work for pouring concrete bridges, excavation for the construction of bridge footings, and construction of bridge piers. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0116 pursuant to section 1601 of the Fish and Game Code to the project operator, Jeff Funk/Santa Clara Valley Transportation Authority.</p>	NOD	
2000082141	<p>Measure A/B Consolidated Biological Mitigation Project Santa Clara Valley Transportation Authority San Jose--Santa Clara</p> <p>The two project sites (referred to as the Tennant Marsh Site and the Riverside Drive Site) are located along Coyote Creek in South San Jose, Santa Clara County. The Tennant Marsh Site is part of the existing Tennant Road Marsh which is located adjacent to the U.S. 101/Route 85 freeway-to-freeway interchange; and the Riverside Drive site is located along Coyote Creek adjacent to the northerly portion of the Coyote Creek Golf Course. Both sites are owned by the Santa Clara County Parks and Recreation Department. The project involves the removal of a noxious weed, giant cane (<i>Arundo donax</i>), as well as the creation and enhancement of wetland, riparian, and shaded riverine aquatic habitat. The project compensates for significant biotic impacts associated with publicly-funded transit and highway improvement projects which are being implemented (or are proposed for implementation) in Santa Clara County, California. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0141 pursuant to section 1601 of the Fish and Game Code to the project operator, Jeff Funk/Santa Clara Valley Transportation Authority.</p>	NOD

<u>Documents Received on Thursday, August 16, 2001</u>			
2001088225	Lease of Existing Building Secretary of State San Francisco--San Francisco The Secretary of State proposes to lease approximately 2,195 square feet of existing office space. The facility would house approximately 6 staff. Approximately 3 parking spaces would be used on a regular basis. This office is being displaced from the San Francisco Civic Center building to allow for the expansion of the Administrative Office of the Courts.	NOE	
2001088226	Yuba Gap, Sno-Park, Parking Rehabilitation Parks and Recreation, Department of Nevada City--Nevada, Placer Manage winter O&M program on the Tahoe National Forest. This project will include resurfacing of three existing parking lots at the Snow Flower Resort with the total of approximately 170,000 square feet. It will also include the removal of a 34 inch pine tree in the first parking lot, reestablishing drainage swales, and the construction of new drain inlets. Analysis indicates no significant cumulative impacts resulting from project. No other known environmental impacts have been found associated with this project.	NOE	
2001088227	Agreement R4-2001-0065; Mallard Acres Pond Clean-out Fish & Game #4 --Fresno The project will occur within or adjacent to Little Dry Creek and three unnamed ponds located on the north side of Millerton Road between Morgan Canyon and Nicholas Roads in Fresno County, California. Northeast 1/4 of Section 24 of T11S, R22E, MDB&M.	NOE	
2001088228	Agreement R4-2001-0077; Dead Vegetation/Trash Removal and Access Clearance Fish & Game #4 Bakersfield--Kern Dead vegetation/trash removal to the southern shore of Kern River within Lot 9. Clear private access path (10 feet wide by 40 feet long), clear public access path (5 feet wide by 60 feet long), clear picnic area (25 feet by 25 feet), and clear trash receptable area (5 feet wide by 10 feet long).	NOE	
2001088229	Agreement R4-2000-0152; Mariposa Creek Mariposa County Low Water Crossing Fish & Game #4 --Mariposa The project will construct a "low head" concrete ford across Mariposa Creek. The crossing will be a reinforced concrete deck with precast concrete head and tail walls. Four 36-inch CMP culverts will be placed in the streambed. Approximately 100 cubic yards of cement will be used to cement these culverts in place. Approximately 1000 cubic yards of imported material will be used to prepare the streambed. This material will be obtained from a nearby upland source. This Project is in conjunction with the Mariposa Town Pedestrian Improvements Projects.	NOE

<u>Documents Received on Thursday, August 16, 2001</u>			
2001088230	<p>Agreement R4-2001-0044; Fellows/McKittrick Pipeline Replacement Project Fish & Game #4 --Kern</p> <p>Replacement of an 8-inch diameter oil pipeline with a 10-inch pipeline across Buena Vista Creek and 26 unnamed ephemeral drainages located in a pipeline easement that runs from McKittrick to Fellows in Kern County, California. Construction right-of-way for the overall project is 40 feet, with the pipeline trench a minimum width of 24 inches, and a minimum depth of 5 feet. The old pipeline will be purged with nitrogen capped, and abandoned in place.</p>	NOE	
2001088231	<p>Wantrup Nature Preserve Fish & Game #3 --Napa</p> <p>The primary work consists of changing the point of overflow of an existing onstream pond from its current location, to a point above the pond where the unnamed tributary enters. A backhoe/excavator will cut a new channel from the upper end of the pond through a transition area (blackberry) away from the creek. The secondary aspect of this project involves the repair of an eroding bank, approximately 250 feet downstream of the new connection point.</p>	NOE	
2001088232	<p>Neptune Drive Drain Outfall Fish & Game #3 San Leandro--Alameda</p> <p>Improve the outfall connections for the City of San Leandro's 48 inch diameter storm drain and 60 inch Bay outfall near the end of Neptune Drive at the entrance to Oyster Point Park, Alameda County. Storm water is discharged from the 48 inch diameter storm drain into a large open pit, where it then flows into the 60 inch diameter outfall to the Bay. The service road is necessary to support maintenance vehicles and enable all weather access in the event of an emergency. Issuance of a Streambed Alteration Agreement Number R3-2001-0295.</p>	NOE	
2001088233	<p>Devcon Construction, Warm Springs Outfall Replacement Fish & Game #3 Fremont--Alameda</p> <p>The operator proposes to remove 27 feet of a 30 inch reinforced concrete pipe (RCP) storm drain and replace with 27 feet of 33 inch RCP in Aqua Caliente Creek. A backhoe will be used to trench 30 linear feet perpendicular to the top of the channel. After installing the new 33 inch by 27 foot RCP the trench will be backfilled using control density fill.</p>	NOE	
2001088234	<p>Bank Stabilization of Pope Creek Fish & Game #1 --Napa</p> <p>The proposed project is the stabilization of the north and south banks of Pope Creek, located at the end of Barnett Road, Pope Valley, Napa County, Assessor's Parcel Number 18-21-12. Bioengineered stabilization of the banks will occur using natural rock rip-rap and vegetation. The area of bioengineering will consist of 100 feet on two banks. The rock riprap will be keyed in and extend about six feet up the bank. This amount of rip-rap is a direct necessity of the extreme flows which occur during severe winter rains. Revegetation will extend above the rip-rap for another six feet up the bank. All work will be done while the creek is completely dry. A backhoe will be used from the top of the bank to place the rip-rap. All</p>	NOE

2001082071	Third Amendment to the Oroville Development Plan Oroville, City of Oroville--Butte Amendment lengthens time period for Agency to incur debt, increases maximum debt limit and increases potential tax increment. No other changes are proposed.	Neg	09/18/2001
1997022059	Upper Guadalupe River Flood Control Project Santa Clara Valley Water District The area includes two distinct segments of the Guadalupe River, one from SR-101 to I-880 and another from I-280 to Blossom Hill Road. Modifications area also proposed on adjacent portions of two tributaries, Ross and Canoas Creeks. Proposed facilities include bypass channels, channel widening and benching, gabion-linings, bridge construction, and floodwalls and levees. The main beneficial effect of the project is reduced flood hazard along the Upper Guadalupe River. Mitigation measures proposed as part of the project would also contribute to long-term improvements. 2000102027	Meridian Plaza Office and Garage Project Sacramento, City of Sacramento--Sacramento Notice of Determination for the City Council Action on AP01-16; abandonment of a portion of 14th Street between L Street and the K Street Alley.	NOD	
2000112004	Evergreen Valley College Facilities Master Plan San Jose-Evergreen Community College District San Jose--Santa Clara The proposed Facilities Master Plan involves the expansion of campus facilities and modifications to campus access and circulation. The proposed projects would involve construction of new facilities (approximately 285,000 square feet), renovation of some facilities, expansion of parking lots and possible construction of a parking structure, a new access road from the western end of the campus, and a relocated eastern campus access from Yerba Buena Road. A commercial center at the corner of San Felipe Road and Yerba Buena Road is being developed privately, and has undergone separate environmental review under CEQA. All of the proposed facilities would be developed within the existing campus boundaries. The development proposed under the Facilities Master Plan is intended to meet the needs of the College for an anticipated enrollment of approximately 16,000 total students by the year 2010.	NOD	
2000112026	Napa Valley Opera House Addition Design Modification Napa, City of Napa--Napa The project is to replace an existing storm drain outlet that will flow into Napa Creek, a tributary to the Napa River. This project is located at the rear of the building at 1030 Main Street in the City of Napa, Napa County. The storm drain will be constructed as detailed in civil drawings C1 and C2 dated March 23, 2001 drawn by Riechers and Associates and #1100122 (1 and 2) of April 10, 2001.	NOD	
2000112051	Rancho Lagunitas Detention Basin-File No. 98-035 Vacaville, City of Vacaville--Solano The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number R2-2001-234 Pursuant to Section 1601 of the Fish and Game Code to the project applicant, City of Vacaville Department of Public Works. The project proposes to construct a 1600' X 400' detention basin, weir and erosion control mats at the inflow and outflow sites, pipe with flap gate at the outflow site, and rock slope protection at the outflow site.	NOD	
2001031111	San Sevaine Channel Stage 7 Flood Control Project Riverside County Flood Control and Water Conservation --Riverside The proposed project consists of the construction, operation, and maintenance of a concrete lined flood control channel. The proposed channel will provide 100-year flood protection to existing public roads, the Union Pacific Railroad, utilities, and an area of dense residential development by connecting two reaches of existing channel. The proposed project is the final reach of channel necessary to complete the San Sevaine Channel Master Plan. The proposed channel configuration consists of approximately 2,220 lineal feet of concrete lined rectangular channel, and approximately 2,910 lineal feet of concrete lined	NOD

2000101027	Hernandez TPM 20433, Log No. 99-02-010 San Diego County, Department of Planning and Land Use San Diego--San Diego The project proposes a minor subdivision of 13.11 acres into four lots and a reminder parcel. Two existing houses will remain on Parcel 2 and the remainder parcel. Lots will range in size from 2.0 acres to 4.0 acres. Future residences on these lots will be served by the local water district and will be on septic. All of the lots will have access from a private cul-de-sac off of Winterwarm Road. Three types of easements will be dedicated as part of the project, including a biological open space easement to protect off-site riparian habitat, a fire clearing easement and steep slope easements.	NOD	
2000111031	Solid Waste Facility Permit Revision - Calexico Imperial County Planning Department Calexico--Imperial Revised Solid Waste Facility Permit to change the boundary from 78-acres to 72.8 acres, define the footprint of 38-acres, increase daily peak tonnage from 63 tons to 150 tons, define peak vehicles of 75 per day, change hours of operation from 24 hours per day, seven days per week to 7 a.m. to 4 p.m during daylight hours, two days per week, disallow acceptance of septic tank pumpings, chemical toilet waste and geothermal drilling muds and change the estimated closure date from 2143 to 2022 and a final elevation of 40 above MSL.	NOD	
2001011007	Patrick Drive Bridge Replacement Project San Diego County Department of Public Works --San Diego Replacement of an existing bridge.	NOD	
2001041116	Proposed Maintenance Station Caltrans #7 Pomona--Los Angeles The proposed project provides accommodations for road repair crews and highway maintenance equipment. The project would support necessary resources to service the freeways and highways for the motoring public and improve response times to emergency and routine maintenance. This facility accommodates crews from the existing Pomona Maintenance Facility that would be displaced from a City of Pomona Mission Boulevard improvement project.	NOD	
2001051116	Schofield Major Residential Subdivision San Diego County, Department of Planning and Land Use --San Diego The project is a major residential subdivision of a 33.85-acre parcel into 8 residential lots. The average estate lot size is 4.06 acres, and lots vary from 2.46 to 5.61 acres. The project proposes a 24' foot wide private road in a 40' foot wide private road easement to serve the 8 residential lots. The project proposes both on-site and off-site mitigation for impacts to biological habitat and the project will require a Habitat Loss Permit.	NOD

2001089066	Hessel Union Church (Retaining Wall and Drainage Outfall Pipe) Sonoma County Permit and Resources Management Department --Sonoma The project involves the placement of a 77-foot long concrete retaining wall that varies in height from 4.5 feet to 7 feet and a 36-inch storm drain outfall into and along a seasonal drainage channel that is adjacent to Union Avenue. The drainage channel is a tributary to Laguna De Santa Rosa. The retaining wall will be trenched into the drainage channel and natural rock rip-rap will be placed at the toe of the retaining wall for stabilization and sediment control. All disturbed soil will be stabilized with a native grass mix. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0511 pursuant to section 1603 of the Fish and Game Code to the project operator, Todd Baker/Hessel Union Church.	NOD	
2001088290	Klamath Forest Fire Station Portable Water Well & Pump Replacement/Upgrade Forestry and Fire Protection, Department of --Sacramento The project shall include the following activities: 1) Remove the existing pump and electrical wiring. 2) Remove the existing PVC well casing. 3) Drill a new well with metal casing, in the same location, to a depth to acquire minimum 10 to 15 gallons per minute. 4) Construct a sanitary seal around the new well casing that meets both the county of Del Norte and CDF's requirements. 5) Install a new submersible pump with wiring, engineered to meet the requirements to pump to the elevation of the existing 10,000-gallon storage tank. 2001081097	Forty Megawatt Peaker Power Plant Plot Plan Review Riverside County Planning Department Riverside--Riverside The City of Riverside proposes to construct four ten-megawatt gas turbine generators to be used in conjunction with the existing power generating and transmission system. The turbines will function as a single unit to provide temporary power generation during times of peak electrical demand. The total anticipated operation time for the "peaker plant" is 1,600 hours per year, with most of the use occurring during the summer months, when power demand is at its highest. Each turbine, including support structures, is approximately 22-feet-high and approximately 115-feet-long, including a selective catalytic reduction system, which utilizes ammonia and a catalyst to reduce exhaust emissions. The exhaust stacks for each unit will be approximately 62-feet-high. The project requires a variance to allow 62-foot-high exhaust stacks where structures are limited to 45 feet in the O-Official Zone. The height is necessary to allow the project to meet air quality standards and is lower than the height of other nearby electrical transmission structures in the area. On this basis, staff is supportive of the variances.	Neg	09/19/2001
2001081100	Tentative Parcel Map 00-065 Tulare County Resource Management Agency Woodlake--Tulare A Tentative Parcel Map for the division of four parcels and a remainder in the AE (Exclusive Agricultural - 5 acre minimum) Zone as follows: Parcel 1 - 1.04 acres, Parcel 2 - 5.90 acres, Parcel 3 - 5.01 acres, Parcel 4 - 8.20 acres and Remainder - 9.95 acres. 1990030560	Sonoma Transfer Station Permit Revision Sonoma County Petaluma--Sonoma Existing Solid Waste Transfer Station. The project consists of an increase in permitted tonnage to allow up to 760 tons per day, and specification of daily traffic limit of 464 total vehicles, 426 bringing waste and 38 removing waste.	NOD	
1997109016	The Syar Industries Inc. Mining Use Permit Application Mining and Geology Board, Department of Conservation Healdsburg--Sonoma Applicant, Syar Industries, Inc., proposes to commercially mine gravel in the Middle Reach of the Russian River near Healdsburg, Sonoma County. Proposed work includes the following: 1.) Conduct instream gravel mining, by dry gravel bar skimming, in Healdsburg adjacent to the Syar plant at Bars 2 and 3, as shown in the U.S. Army Corps of Engineers Public Notice Number 18104N dated 6 February 1998. 2.) Conduct instream gravel mining, by gravel bar skimming, in the Middle Reach on Bar 13 just upstream for No Name pit, as shown in the U.S. Army Corps of Engineers Public Notice Number 18104N dated 6 February 1998. 3.) Install one temporary crossing of the Russian River in the Healdsburg bendway adjacent to the Syar plant to gain access to Bar 2. 4.) Remove stands of giant reed, Arundo donax, from the banks of the Russian River in the area of Bars 2 and 3. Gravel will be transported on the main haul roads to the Syar processing plant in Healdsburg. Gravel from bar 13 will be transported on the main haul road which crosses the Russian River near the highway 101 bridge. Construction of the main haul is regulated under a separate Agreement. The Russian River supports populations of chinook salmon, coho salmon, and steelhead trout, all listed as Threatened under the Federal Endangered Species Act. The project area serves primarily as a migration route for these species. During the summer months a small number of juvenile steelhead may rear in the project area. Other sensitive species, such as western pond turtles and Russian River tule perch, occur in nearby portions of the Russian River. All mining activities will be out of the flowing stream. There is no significant riparian vegetation in the mining area on bars 2, 3, or 13. Any riparian vegetation on the outer stream banks or along the edge of the summer low flow channel is outside the designated mining area. What vegetation does occur within the mining area is widely spaced small clumps of very young willows on a mostly barren gravel bar. The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement Number R3-2001-0230 pursuant to Section 1603 of the Fish and Game Code to the project operator, John Perry/Syar Industries, Inc.. 	<p>foundation for a series of PVC-coated gabion baskets. The gabion baskets would range from approximately three to ten feet deep, forming a structure that would be approximately 23 feet high and 130 feet long. The baskets would be placed in a stepped front-face configuration at a six-degree batter. The baskets would be hand-filled with rocks of sufficient size that they would be backfilled contained by the baskets and unable to pass through the wire mesh. Upon completion of placement of the baskets, the gravel and material previously removed from the stream to accommodate the 1.5 to 2 ton boulders would be backfilled behind and among the gabion baskets to provide substrate for revegetation. Three cross-log or boulder weir habitat enhancement structures would be constructed in the channel to help protect the newly-formed structure and to provide additional habitat for fish and other aquatic resources. The project is needed to eliminate stream bank erosion and prevent the eventual collapse of the building. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0514 pursuant to Section 1603 of the Fish and Game Code to the project operator, James Harrison/Creekside Parcel Associates. This is to advise that the California Department of Fish and Game as a Responsible Agency approved the project described above on August 17, 2001 and has made the following determinations regarding the above described project pursuant to section 15096 (i).</p>		
2001088306	<p>Silt Removal from Meadow Creek Culverts Fish & Game #3 Arroyo Grande--San Luis Obispo</p> <p>This project is located on Meadow Creek at Equestrian Way in the City of Arroyo Grande, in the County of San Luis Obispo and consists of removing silt which has accumulated on both the up and downstream ends of culverts under Equestrian Way. The culverts are filled to within 1 foot of their top and are not able to hold any additional flow at this time. A backhoe will be used will be used to reach into the channel at the site. No vegetation will need to be removed to place the equipment or remove the silt. The up and downstream ends of the culvert are clear of vegetation beyond the work area and will not be affected. The silt inside the culvert will be removed using water pipes to hose it out and then it will be picked up with the backhoe. The silt will be removed to offsite and will not reenter the channel. A California red-legged frog survey was done for another project approximately five months ago and none were found. This project was approximately 100 yards from the current application site. As the site is completely silted in it is doubtful any of these species are now occurring. Issuance of a Streambed Alteration Agreement Number R3-2001-0282 pursuant to Fish and Game Code Section 1601.</p>	NOE

2001082084	<p>1996.545E: Mid Market Redevelopment Plan San Francisco, City and County Planning Dept. San Francisco--San Francisco</p> <p>The primary goal of the Mid Market Redevelopment Plan is the alleviation of blighting condition in the Project Area through the development of desired uses on vacant and underutilized parcels, improvement and/or rehabilitation of existing structures, public facilities and an investment in public improvements. The focus of the redevelopment program is to create an active, mixed-use environment where residence and visitors can comfortably live, work, and visit. Therefore, the plan identifies potential new development on vacant and underused parcels and within existing structures appropriate for rehabilitation. Revitalization of the Project Area will also include the development of new residential, commercial, office, arts/entertainment, cultural and other complimentary uses that will increase the number of residences, businesses and visitors in the area. A major goal of the Plan is the creation of a critical mass of residential development that can accommodate a broad range of household incomes and types. Potential future housing development scenarios estimate as much as approximately 2,400 new housing units and households by the year 2020. Public improvement projects will place an emphasis on improving the pedestrian environment while private development will be guided by pedestrian-oriented urban designs guidelines.</p>	NOP	09/21/2001
2001081101	<p>Haskell Canyon Road Widening Santa Clarita, City of Santa Clarita--Los Angeles</p> <p>The proposal includes the widening of the west side of Haskell Canyon Road and the construction of a curb, gutter and sidewalk, in addition to a striped median and two bike lanes. 	project is associated with the development of a vacant parcel of land into four single family lots and will provide the means to convey storm water to an existing drainage system through the ACFC & WCD's concrete lined channel. Issuance of a Streambed Alteration Agreement Number R3-2001-0633 pursuant to Fish and Game Code Section 1603.		
2001088313	Storm Drain Repair and Installation Program, Pleasant Hill Fish & Game #3 Pleasant Hill--Contra Costa To help alleviate flooding problems and repair failing metal pipes, the operator proposes to replace culverts under three streets (105 Hubbard Avenue, 207 Poshard Street, and Oakvue Road at Oakvue Court) along Matson Creek, in Pleasant Hill, Contra Costa County. The existing corrugated metal pipes will be replaced with concrete pipes and/or concrete boxes. Concrete head walls, end walls, and wing walls will be constructed at the up and downstream end of each culvert. No more than 5 linear feet of loose rock riprap will be used on the banks to armor the ends of the wingwalls. The new construction will not impact more than 10 linear feet, up or downstream from the existing pipes. Issuance of a Streambed Alteration Agreement Number R3-2001-0534 pursuant to Fish and Game Code Section 1601.	NOE	
2001088314	Culvert Extension at 1477 Patrick Road Fish & Game #3 Napa--Napa The operator proposes to extend an existing concrete box culvert in an unnamed tributary to Browns Valley Creek at 1477 Patrick Road, Napa, Napa County. The existing concrete box culvert is plugged with debris, causing the water to wash over and erode the road. The concrete box culvert would be cleaned of debris and a 48 inch corrugated metal pipe would be inserted through the concrete box culvert, extending the northern side approximately 6 feet and the southern side approximately 10 feet. The area would be backfilled with clean soil and the road would be reconstructed to comply with Napa County Fire regulations. The ends of the culvert would be armored with a minimum amount of loose rock riprap to prevent erosion. At the time of the site visit on July 27, 2001, the unnamed tributary was completely dry, with very little understory vegetation. One oak tree is within the project site, but will not be impacted during construction. Issuance of a Streambed Alteration Agreement Number R3-2001-0680 pursuant to Fish and Game Code Section 1603. EIR	10/08/2001
2000102070	Bell South General Plan Amendment, Community Plan Amendment, Rezone, Tentative Parcel Map, Vesting Subdivision Map Elk Grove, City of Elk Grove--Sacramento The proposed Bell South project consists of a General Plan Amendment, rezone, Community Plan amendment, two tentative parcel maps, and a vesting subdivision map, all of which would serve to guide the development of the approximately 36.20 acre project site. Land uses within the project would consist of 19.47 acres of residential use, 6.75 acres for commercial use, 1.23 acres of open space, and 8.75 acres of open space-floodplain. The project would include development of a commercial center and a residential subdivision, along with improvements to the Laguna Creek Parkway and improvements to Laguna Creek to contain increased runoff and drainage from the project.	EIR	10/08/2001
2001081117	TPS Nursery Products Adelanto, City of --San Bernardino The proposed project consists of entitlements for the construction and operation of a composting recycling center for green wastes and bio-solids. Bio-solids are digested, de-watered sewage sludge from municipal water reclamation facilities throughout southern California, including bio-solids from the City of Adelanto's municipal water reclamation facility. Green waste is spent wood, branches, trees, grass and other organic wood wastes. Both the green waste and bio-solids will be trucked into the TPS Nursery Product facility Monday through Friday. The clean wood or green wastes is pre-processed using a Morbark 1300 tub grinder. The bio-solids are tipped from the end dump truck directly onto the mixing platform. Using a front-end loader shovel, the bio-solids are mixed with wood/green waste at a ratio of 50% bio-solids to 50% wood green waste. Using the same loading shovel the mixed wastes are constructed into windrows of eight to twelve feet in height. A proprietary catalyst is then added using the front-end loader shovel. The microorganisms within the catalyst will migrate along the window surface very rapidly and proceed to penetrate in time into the core of the pile. The windrow	NOP	09/21/2001

2000012048	<p>Application to Appropriate Water No. 29858 State Water Resources Control Board Calistoga--Sonoma, Napa</p> <p>Construction of an earthen berm dam and 27 acre-foot water storage reservoir on a tributary to Porter Creek located 0.5 miles south of the intersection of Petrified Forest Road and Sharp Road in Sonoma County. The project includes a spillway and placement of rock rip-rap to dissipate energy at the spillway discharge. The design also includes bypass structures to allow a portion of the reservoir to pass through the dam during filling. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2000-1305 pursuant to Section 1603 of the Fish and Game code to the project operator, Douglas Grigg, Napa Valley Vineyard Engineering.</p>	NOD	
2001012009	<p>Calaveras Road Slope Stabilization Project Milpitas, City of Milpitas--Santa Clara</p> <p>The Calaveras Road Rock Slope Protection Project consists of the stabilization of the bank supporting the south shoulder of Calaveras Road, in the City of Milpitas with mechanical soil anchors and miscellaneous drainage improvements and installation of drilled piers or a retaining wall to arrest further movement of soils. The California Department Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0447 pursuant to Section 1601 of the Fish and Game Code to the project operator, Joe Ezeokeke/City of Milpitas.</p>	NOD	
2001052124	<p>Tormey Drain Improvement Anderson, City of Anderson--Shasta</p> <p>Widen Tormey Drain to 27 feet from its current 21 feet and install a box culvert to adequately accommodate flows from a 100-year storm event, and to reduce the 100-year flood plain.</p>	NOD	
2001061007	<p>ER 2000-09 - Gravity Float Line Replacement Project Escondido, City of Escondido--San Diego</p> <p>Replacement and realignment of an existing gravity-flow pipeline for water distribution, consisting of the construction of approximately 7,400 feet of pipeline, abandonment of a portion of the existing float line and appurtenances, and dismantling of three existing float boxes. The project includes below-grade construction of approximately 5,600 feet of 16-inch diameter cement mortar lined and coated (CMLC) steel pipeline, 1,300 feet of 12-inch polyvinyl chloride (PVC) pipeline and 500 feet of 8-inch PVC pipeline. The transmission would be capable of handling up to 225 psi in pressure. New service lines and connections would be installed for each customer affected by the abandonment of the gravity float line.</p>	NOD

2001061041	Honda Dealership/Autonation Santa Clarita, City of Santa Clarita--Los Angeles An application for development review has been submitted for the 28,296 square foot building for a new and used car retailer.	NOD	
2001061113	Pump Station No. 2 Relocation/Force Main Replacement Cayucos Sanitary District Morro Bay--San Luis Obispo Relocate and replace an existing pump station No. 2. Replace an existing force main from Pump Station No. 2 to a tie-in located adjacent to Studio Drive.	NOD	
2001062085	Edge Wireless Coastal Development and Conditional Use Permit for the Development of a 90-Foot Monopole and Appurtenant Cellular Communication Equipment Humboldt County --Humboldt Development of a 90 foot wooden, cellular tower (monopole) with directional antennas. The project includes a 116 square foot prefabricated equipment building and a 6 foot chain link fence. Nine directional panels and two, six foot microwave dishes will be mounted on the monopole. The development will occur on a 40 foot by 40 foot leased portion of the 42 acre parcel. The parcel is currently developed with a single family residence, agricultural outbuildings, FAA communication tower and a gas well. The parcel is served with on-site water and sewage disposal system.	NOD	
2001071029	Southbay Boat Yard Port Master Plan Amendment Draft Negative Declaration San Diego Unified Port District Chula Vista--San Diego A Port Master Plan Amendment redesignating Marine Related Industrial land to Commercial Recreation, Habitat Replacement Conservation, and Promenade land uses, as well as a water use redesignation from Specialized Berthing to Wetlands.	NOD	
2001072048	Dolores Huerta Elementary School Stockton Unified School District Stockton--San Joaquin A new elementary school (K to 6th grade) for approximately 400 students plus staff. Off street parking and traffic mitigation measures are included in the project.	NOD	
2001089077	121 W. Mountain Drive Santa Barbara, City of Santa Barbara--Santa Barbara The project involves the subdivision of a 22.23-acre parcel into four (4) single-family parcels of 7.01, 6.16, 6.0, and 3.07 acres with associated site improvements. Approximately 2,400 cubic yards of cut and fill are proposed. No import or export or fill is proposed. The existing parcel is zoned A-1, Single-Family Residential Zone and has an average slope of 51%. The site is accessed by way of a private road off Mountain Drive, through a parcel outside of the City Limits. The existing site as well as the newly created lots will not have public street frontage. Existing development located on the northeasterly portion of the site includes a one-story wood frame single-family residence with a two-acre garage and an accessory building.	NOD

2001088321	Bank Repair Fish & Game #3 --San Diego The project will repair damage to the stream bank adjacent to Rider Road. All sites will be excavated prior to placing filter fabric, rock slope protection and compacted backfill. Issuance of a Streambed Alteration Agreement Number R3-2001-0120 pursuant to Fish and Game Code Section 1601.	NOE	
2001088322	Riparian Vegetation Removal and Riparian Planting Fish & Game #3 --Mendocino Removal of a dense, 150-foot long strip of willow/alder saplings from within the stream channel, and planting willows/alders along the north bank adjacent to the area of willow/alder removal. An excavator will be used to dig out the willow/alder saplings; some of these trees will be used to re-establish willow/alder growth along various sections of the stream bank. Issuance of a Streambed Alteration Agreement Number R3-2001-0044 pursuant to Fish and Game Code Section 1603.	NOE	
2001088323	People's Park Drainage & Safety Improvements Project University of California, Berkeley Berkeley--Alameda UCB staff, working with People's Park Community Advisory Board, have developed plans for controlling erosion and improving drainage, safety and accessibility along the north end of the park. This project includes the installation of two low seat/retaining walls, some resurfacing, a subsurface drainage system, plantings, and new screen fence around the dumpsters. These improvements will not affect any of the historic features of the park and do not signify a change in the use of the park. The project is exempt under Class 4 because the alterations are minor and do not involve removal of scenic trees.	NOE	
2001088324	LeConte Hall Seismic Safety Corrections Project University of California, Berkeley Berkeley-- The proposed project encompasses the seismic retrofit, related fire and life safety, and Americans with Disability Acts (ADA) upgrades to the "old" (original 1923) portion of LeConte Hall on the Berkeley campus. Construction would be limited to the interior of the old portion of LeConte Hall, except for temporary staging areas, construction trailers, and fencing temporarily located in the vicinity of the building. Construction work would begin summer of 2002 and last for a total of 19 months. Occupants and facilities in the building would be temporarily decanted to other locations during construction and returned upon project completion.	NOE

2000051109	Block 104/105 Redevelopment Project (The Strand at Downtown Huntington Beach) Huntington Beach, City of Huntington Beach--Orange The project proposes to redevelop the 6.31-acre (2.97-acre developable) Block 104/105 site, which is currently occupied by retail, commercial, office, and residential uses, with 231,880 leasable square feet of visitor-oriented commercial uses and office uses. Proposed uses include retail commercial, entertainment oriented retail, restaurants, and a 149 room hotel. Implementation of the proposed project requires demolition of the existing structures on-site, including existing residences.	NOP	09/24/2001
2001081134	Miramar Hills Curve Realignment and Second Main Track North County Transit District San Diego--San Diego The Miramar Hills Curve Realignment and Second Main Track project study area lies within the ridgelines of Soledad Canyon, and extends approximately from the intersection of Sorrento Valley Boulevard and Sorrento Valley Road, under Interstate 805, to just south of Miramar Road. The proposed action involves realigning a portion of an existing railroad track and installing a second main track from Control Point (CP) Pines (Mile Post (MP) 249) near Sorrento Station southeast to CP Cumbres (MP 253) near Miramar Road. The existing track alignment closely follows the southerly wall of the canyon, and consists of steep grades and sharp curves. The alignment of the existing track is such that passenger (and freight) train speeds are severely limited. The second main track would generally parallel the existing track at the two ends of the canyon, but in the mid-portion of the project cross to the north side of the canyon and traverse undeveloped hillsides. The second main track would have a straighter alignment to allow an increase in passenger train speeds from 30 to 48 mph.	NOP	09/24/2001

2001082110	Repair and Rehabilitate Main Park Road and Manzanita Lake Campground Road Lassen Volcanic National Park Mineral--Shasta, Tehama The National Park Service (NPS) proposes to repair 7.9 miles of the main park road and 0.6 miles of the Manzanita campground entrance road in Lassen Volcanic National Park. The purposes of the project are to enhance public health and safety, enhance the visitor experience, preserve the main park road, which is a cultural resource, improve natural resource protection, and enable more efficient use of park maintenance funds.	EA	09/25/2001
2001084009	Blanket Approval for Non Long Term CVP Contracts for Surplus Water U.S. Bureau of Reclamation --Fresno, Kern, Kings, Tulare Approval and consideration for non-long term CVP contractors to receive surplus water when available.	EA	09/25/2001
2000041004	United Rock Products Reclamation Plan Supplements For Pits Nos. 2 and 3 Mining and Geology Board, Department of Conservation Irwindale--Los Angeles The proposed project is the reclamation of two active aggregate mining pits. The pits are proposed to be filled with Class III inert material to an elevation 10 feet higher than the historical high groundwater level and have stable side slopes constructed at minimum 2:1 inclinations.	EIR	10/10/2001
2001031017	Cal Poly Faculty/Staff Housing Project-Site H-9 California State Polytechnic University, San Luis Obispo San Luis Obispo--San Luis Obispo A maximum of 165 attached and detached single-family dwellings for faculty and staff of the University. Project incorporates mitigation from Master Plan EIR (2001).	EIR	10/25/2001
2001021049	2001 Tulare County Regional Transportation Plan Tulare County Association of Governments Exeter, Porterville, Lindsay--Tulare The RTP will address the effects of planned growth and development on the existing and planned transportation system. The resultant analysis will document existing and future year (Year 2025) multimodal transportation system conditions. Modes studied include highways and arterials, public transit, nonmotorized systems, passenger and freight rail, and aviation.	FIN	
2001081141	Save On/Live Work Lofts EIR Santa Ana, City of Santa Ana--Orange The proposed project involves the development of a 15,000 square foot Save On drug store and four live work loft residential units. As part of the proposed project, Second Street between Sycamore Street and Main Street would be converted from a two-way street to a one-way street.	NOP	09/25/2001

2001082112	High Winds Solano County, Department of Environmental Planning Services Fairfield--Solano High Winds proposes to install and operate up to 250 wind turbine generators with a total rated capacity of up to 150 megawatts over an area of about 6,000 acres in the Montezuma Hills in Solano County.	NOP	09/25/2001
2001082113	Arcadia Mixed Use Development Project Brentwood, City of Brentwood--Contra Costa The proposed Arcadia Mixed Use Planned Development (the "Project") is to be built on an approximately 76-acre site (the "project site") situated in the northwest area of the City of Brentwood, CA. The project site is bounded by Lone Tree Way to the north, a 100-foot East Bay Municipal Utility District right-of way (Mokelumne Aqueduct) to the south, Heidron Ranch to the west, and State Route 4 Bypass (the "Bypass") to the east. The project will serve as the primary western entrance to the City of Brentwood via Lone Tree Way. The Retail Phase (including roadways) will cover approximately 52 percent of the project site (39.55 acres). The proposed Office and Residential Phase (including roadways) will occupy approximately 42 percent of the site (32.31 acres). The remainder of the project site will be used for dedicated roadways.	NOP	09/26/2001
2001042016	Gilroy Retail Center (Alamo Plaza) Gilroy, City of Gilroy--Santa Clara The proposed project is the subdivision of a 97-acre site into 18 commercial parcels and development of commercial and possibly industrial uses. The proposed project would be developed in two phases. The first phase would include 11 parcels with two retail anchor stores, a motel and other commercial uses. The second phase would include seven parcels, with two retail anchor stores, other commercial uses, and two parcels that could be developed as either commercial or industrial.	Neg	09/26/2001
2001081136	Robert and Marilouise Jackson Combined Development Permit Monterey County Planning & Building Inspection Carmel--Monterey The applicant seeks a Combined Development Permit for the construction of a single family home.	Neg	09/25/2001
2001081137	Shadow Canyon Road Bank Stabilization Project; ED 99-597(C990045E/P12B501) San Luis Obispo County --San Luis Obispo The County of San Luis Obispo is proposing to repair the eroded bank of Paso Robles Creek along Shadow Canyon Road by placing rock slope protection (RSP) upstream and adjacent to the existing RSP in order to prevent further erosion and undercutting by the creek. The repair site is approximately 25 feet long and 15 feet wide.	Neg	09/25/2001

2001082107	Knox Final Map Subdivision, FMS-00-04 Humboldt County Planning Department --Humboldt Re-approval of an expired but previously approved tentative map for the subdivision of an approximately 4.9 acre parcel into 15 lots ranging in size from approximately 5,190 square feet to approximately 7,140 square feet and a remainder of approximately 2.0 acres. The project includes an exception to the subdivision requirements for reduced lot frontage for proposed lots 11,12,13 and 14 (which are to be flag lots) and reduced road right of way for Rita Avenue, Imeson Road, and Eucalyptus Road.	Neg	09/25/2001
2001082108	Shasta Mountain Recreational Vehicle Park Weed, City of Weed--Siskiyou Creation of a recreation vehicle and tent camping park with 463 sites, cabins, recreation facilities, clubhouse, dining room, kitchen, entertainment room and offices.	Neg	09/25/2001
2001082109	Edsell Mixed-Use Project Pacifica, City of Pacifica--San Mateo Construction of a three-story, 6,631 square-foot mixed use (commercial and residential) building, plus 390 square-foot detached storage/recreation building. The main building includes 4 upper one-bedroom apartment units and two ground floor commercial units. The project includes general plan and local coastal program land use amendments from high density residential to commercial and rezoning from R-3, multiple-family residential to C-1, neighborhood commercial. Other requested local permits include use permit, coastal development permit, site development permit, and parking exceptions.	Neg	09/25/2001
2001082111	Proposed Caltrans Annex I and II Seismic Retrofit Project Caltrans #3 Sacramento--Sacramento The proposed Caltrans Annex I and II seismic retrofit project would entail structural improvements and modifications to two Caltrans buildings to reduce the seismic risk levels as prescribed under the State Building Seismic Program. The reduction of seismic risk levels can be accomplished effectively by a new lateral load resisting system, consistent with the provisions of the 1998 California Building Code. The key aspect of the proposed retrofit project is the addition of reinforced concrete shear walls on the exterior corners of the building and at the juncture of Annex I and II. The walls would extend from the basement to the roof and would replicate original architectural details and include new slightly smaller operable windows at existing window locations at all levels.	Neg	09/25/2001

2000091008	Delano Wastewater Treatment Plant Expansion and Collection System Upgrades Delano, City of Delano--Kern Expansion of collection system, Wastewater Treatment Plant (WWTP) and reclamation area (WWTP to expand from 4.4 to 7.2 million gallons per day).	NOD	
2000092010	Vimark, et al. In-stream Mining and Reclamation Project Sonoma County Cloverdale--Sonoma Shamrock Materials, Inc. proposes to mine gravel from the Russian River from approximately the Crocker Road Bridge in Cloverdale for two miles downstream. This is known as the Vimark, et al., Mining Project. The mining standards for the Vimark Project generally conform to those of the Sonoma County Aggregate Resources Management Plan and the Sonoma County Surface Mining Ordinance, but allow more mining on the heads of the gravel bars and allow the removal of riparian vegetation which has become established on some of the bars. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2000-1099 pursuant to section 1603 of the Fish and Game Code to the project operator, David Ripple/Shamrock Materials, Inc.	NOD	
2000111027	Santa Fe Christian School Remodel/Expansion (Case #17-00-08) Solana Beach, City of Solana Beach--San Diego A master plan for development and redevelopment of upper, middle, and lower schools and associated facilities including a performing arts center and cafeteria on the site of the existing school facilities.	NOD	
2001031102	Sand Canyon Creek Improvement Project Big Bear Lake, City of Big Bear Lake--San Bernardino Improvements to existing drainage channel to include construction of a reinforced concrete box culvert, regrade and excavation, slope protection, and acquisition of right-of-way.	NOD	
2001042087	Stevens Canyon Road Interim Flood Alleviation Project Santa Clara County Cupertino--Santa Clara The interim project was conceived to provide near-term flooding protection for the 10-year flood event along a stretch of roadway that has experienced flooding and resulting roadway closures. It includes raising the roadway up six feet along its existing alignment. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0596 pursuant to section 1601 of the Fish and Game Code to the project operator, Alan Jones/Santa Clara County Department of Roads and Airports. 2001042117	W.W. Kelly-Rezone from CT to TPZ Del Norte County Crescent City--Del Norte Rezone of a portion of a 194.62 acre parcel zone CT (Coastal Timber), A-20 (General Agriculture) and RCA-1 (General Designated Resource Conservation Area) to TPZ (Timber Reserve). The zoning designation has the same intent; primary permitted uses, and uses requiring a Use Permit. The Project would allow the property owner to realize tax benefits available in TPZ that are not available in CT. No development is proposed, and no physical changes will occur.	NOD	
2001042130	Chapel Cove Initial Study San Rafael, City of San Rafael--Marin Paramount Homes of Concord has submitted a plan to develop 15 residential lots consisting of 13 detached single-family homes and two attached single-family homes for below market rate sales. The plan proposes to retain the historic Chapel, construct two parking lots serving the Chapel, provide a park/tot lot, and establish an open space easement over portions of several lots. The existing Church and Rectory buildings as well as related paving and landscaping would be removed.	NOD	
2001052013	2001 Stream Maintenance Program Santa Clara Valley Water District --Santa Clara The project consists of annual stream maintenance activities which includes sediment removal in 17 channel segments and bank stabilization along 15 channel segments in Santa Clara County. The California Department of Fish and Game is executing Lake and Streambed Alteration Agreement Numbers R3-2001-0398 pursuant to section 1601 of the Fish and Game Code to the project operator, Frank Cordova/Santa Clara Valley Water District.	NOD	
2001071041	Kramer Junction Expansion Project Adelanto, City of Adelanto--San Bernardino CDFG is executing a Lake and Streambed Alteration Agreement pursuant to section 1601 (SAA#6-2001-048) of the Fish and Game Code to the project applicant, Southern California Gas Company. The applicant proposes to construct a 32-mile, 30-inch pipeline to the Southern California Gas Adelanto Compressor Station. The project is located from Kramer Junction to the City of Adelanto in San Bernardino County.	NOD	
2001071112	Conditional Use Permit #2001-15/Singh Inyo County Planning Department --Inyo This project is to re-open an existing RV and Mobile Home Park to expand it from 20 spaces to 55 spaces. 29 of the spaces are for overnight parking and 26 of the spaces are for permanent use.	NOD

2001089076	<p>Sheppel Oak Park Health Plaza (Meadow Creek) Arroyo Grande, City of Arroyo Grande--San Luis Obispo</p> <p>The project is located at 880 Oak Park, Assessor's Parcel Number 007-771-076, 053, 062, in the City Arroyo Grande, County of San Luis Obispo and would consist of building an outpatient surgery center. The project would be located on a 1.8 acre lot west of and adjacent to Meadow Creek, which tributaries to the Pismo Beach Ecological Reserve. A 25,000 square foot split level office building and associated parking spaces would be built at the site. Approximately 315 linear feet of retaining wall, just below the top of the Meadow Creek bank, would be built to support the parking area. No other construction would occur within the banks of Meadow Creek. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-200-0115 pursuant to Section 1603 of the Fish and Game Code to the project operator, Russ Sheppel.</p>	NOD	
2001088344	<p>The Agreement R4-2001-0086; Pitman Diversion Repair Project Fish & Game #4 --Fresno</p> <p>Remove and replace an existing gaging station control weir upstream of the diversion dam on Pitman Creek. Pitman Creek will be diverted temporarily around the work site, using temporary sandbag structures and a short diversion pipe. Remove, refurbish and replace slide gates, guides, and seals at the intake to the diversion. Repair concrete intake in the diversion structure, and concrete approach apron. Remove six boulders upstream of the weir. Core the diversion dam, install a new 12-inch fish-release pipe to extend 25 feet downstream. Install a slide gate with orifice plate and an acoustical flow meter at the pipe outlet. Install a small truck crane on a permanent foundation to remove trash from the intake grid. Install underground power line to the diversion dam, for power to operate slide gates. Construct new walkways and handrails for access to the acoustical flow meter.</p>	NOE	
2001088345	<p>Agreement R4-2001-0045; Milepost 35 Pipeline Replacement Fish & Game #4 --Fresno</p> <p>The project will replace a 20-inch diameter oil pipeline across Tumey Gulch and 2 unnamed ephemeral drainages within a pipeline easement that runs along the eastern base of Monocline Ridge in the Ciervo Hills in Fresno County, California. Construction right-of-way for the project is 40 feet wide, the pipeline trench a minimum width of 30 inches, and a minimum depth of 7 feet. Construction will occur when the drainages are dry and is expected to take approximately four weeks. Old pipeline will be purged with nitrogen, capped, and abandoned in place.</p>	NOE	
2001088346	<p>Miramar Homestead Dam Maintenance Regional Water Quality Control Board, Region 9 (San Diego), San Diego --San Diego</p> <p>Maintenace and upgrade of the Homestead Dam that has deteriorated over the years and is leaking. The maintenance activities are proposed in accordance with the Dam Safety Maintenance and Repair Program, and consist of replacing the outlet pipe, installing erosion control devices for bank stabilization, removal of woody vegetation from the dam surface and revegetation with non-woody native</p>	NOE

2001088435	Road Maintenance at the Rialto Feeder Pipeline in Northeast Claremont Metropolitan Water District of Southern California Claremont--Los Angeles The Metropolitan Water District of Southern California (Metropolitan) is proposing to maintain patrol roads for the Rialto Feeder Pipeline. The patrol road starts at Pomello Drive and travels south to Miramar Avenue. At Miramar Avenue, the road turns east and extends to the San Antonio Channel. The road then turns north and follows the channel until it returns to Pomello Drive and winds back to the entrance. Metropolitan proposes to maintain these roads free of weeds.	NOE	
2001088436	Upgrade Fire Alarm Systems-Buildings 1 and 2 Franchise Tax Board Sacramento--Sacramento The proposed project consists of upgrading the existing fire alarm systems at Buildings 1 and 2 and will involve modifications and additions to the Fire Alarm Systems to conform to minimum fire and life safety code standards contained within the 1998 California Building Standards Code (CBSC). This upgrade will also involve additions to the emergency warning systems as part of the Fire Alarm System to comply with the requirements of the Americans with Disabilities Act (ADA). The CBSC upgrades will involve retrofitting interior exit doors in exit passageways with magnetic door holders that will automatically close by actuation of a smoke detector. Additionally, the Day Care Centers in both buildings require an approved Fire Alarm System that can be tested monthly during fire drills. The ADA upgrades will involve adjusting the heights of the manual fire alarm pull stations and adding visual and audible alarms to toilets, corridors, conference rooms, training rooms and lobbies.	NOE	
2001088445	Office/Warehouse Space Lease Parks and Recreation, Department of West Sacramento--Yolo The Department will lease new office and warehouse/storage space at 3930 Seaport Boulevard. This space will replace the existing warehouse at 2229 S. Street, Sacramento. Other units of the Department will use the storage space for equipment, and receipt and modification of Field Service Division vehicles. The Distribution and Reproduction Center will be moved to the new space.	NOE	
2001088446	Power Pole Replacement Parks and Recreation, Department of --San Luis Obispo Remove two existing power poles along Pecho Road and install two new power poles adjacent to the old locations. Holes will be dug by hand. Poles will be delivered to nearby road turnouts and lifted by helicopter into the holes. Excavation of one pole site will be monitored by an archeologist.	NOE	
2001088447	Red Fox Removal Parks and Recreation, Department of --San Mateo Trap and remove non-native Red Fox to protect Western Snowy Plover habitat areas. Trapping will primarily occur at the Francis Beach area.	NOE

2001084010	Integrated Natural Resources Management Plan for Edwards Air Force Base U.S. Air Force --Kern, Los Angeles, San Bernardino The INRMP will emphasize a continued ecosystem management approach by Edwards AFB in concert with the Air Force mission. One goal of an ecosystem management approach is to protect the properties and functions of natural ecosystems. Since these ecosystems extend beyond the installation's boundaries, the Air Force's natural resources management will also include coordination and partnerships with agencies that have natural resources in the surrounding areas, achieving a balance between resource users, developing mechanisms to establish and maintain partnerships, and establishing an enhanced environmental education program.	EA	09/28/2001
2000091034	Pala Mesa Highlands Major Subdivision San Diego County, Department of Planning and Land Use San Diego--San Diego The project is a proposal for a Tentative Map, Rezone, and minor amendment to the 1973 Pala Mesa Private Development Plan (PDP) for the subdivision of the 85.9-acre parcel into 197 residential lots. The current proposal includes the development of residential lots, two parks, a 19.7-acre permanent open space area, and 11 private street lots. Lots would range in size from 6,000 square feet to 25,000 square feet. In addition, the PDP amendment and rezone would eliminate multi-family uses and a swimming pool facility within the site, and change the residential density from variable 1, 3, 4, and 7 dwelling units per acre to single-family residential at 4 dwelling units per acre across the site.	EIR	10/15/2001
2001081168	Construction of an Organizational Maintenance Shop California Army National Guard San Luis Obispo--San Luis Obispo Under the proposed project, the California Army National Guard would construct a modern organizational maintenance shop (OMS) at Camp San Luis Obispo in San Luis Obispo County. This project is needed because the existing maintenance shop does not meet National Guard space requirements and the shop is not suitable for expansion or rehabilitation. The approximately 12,670 square foot OMS and associated facilities would be constructed over approximately 12 to 14 months. The total surface area to be disturbed is an estimated 93,768 square feet	JD	09/28/2001

	(2.15 acres). Operation of the OMS would be a continuation of the services provided by the existing maintenance shop, which is staffed by eight employees from 7:00 AM until 5:30 PM Tuesday through Friday. The facility supports 250 vehicles and 100 pieces of equipment operated by units at Camp San Luis Obispo. Scheduled and unscheduled maintenance on wheeled vehicles makes up most of the operations performed at the facility.		
1993121097	The Residences at Sandpiper Santa Barbara County Goleta--Santa Barbara The project site, located at 7925 Hollister Avenue in Goleta, consists of 209 acres on a coastal plain above the Pacific Ocean. It now includes an 18-hole golf course and practice range, an 8,943 square-foot clubhouse and 372-space parking lot, and various maintenance facilities. The site also includes a vacant historic structure, the Barnsdall-Rio Grande Gas station, which is protected under the County's historic landmarks ordinance.	NOP	09/28/2001

2001081158	Montecito Verde II Nipomo Community Services District Nipomo--San Luis Obispo The purpose of this project is to replace the existing on-site sewage leach field and collection system at Montecito Verde II subdivision (MVII) with a collection system that ties MVII to Nipomo Community Services District (NCSD) wastewater treatment facilities. The existing sewage collection system in MVII consists of six and eight-inch sewer lines running in Meridith Avenue, Allegre Avenue, and Quito Street. These lines then discharge to one of the five on-site septic tanks. The septic tanks and disposal fields are located within the boundaries of MVII. There are between four and eight houses contributing effluent to each disposal field.	Neg	09/28/2001
2001081160	Estancia Winery Soledad, City of Soledad--Monterey The applicant is proposing to expand the existing approximately 60,000 square foot Estancia Winery by construction of an approximately 130,000 square foot winery facility that will include barrel storage, wine tanks, grape reception/crushing area, case goods area (eventually to become a million case facility), and assortment of auxiliary areas to include office, mechanical building, bottling area, chemical storage, staff room, barrel washing area, visitor reception area, and parking. The new facility will be constructed in three phases. Phase 1 will include the barrel room building. Phase 2 is construction of the tank fermentation area and grape reception area. Phase 3 includes construction of the bottling, visitor center and new offices. Completion of the entire project is anticipated in December 2004. In addition, the project includes a 4,800 square foot agricultural	Neg	09/28/2001

2001081162	Calvary Chapel Major Use Permit Modification San Diego County Department of Planning and Land Use --San Diego The proposed project consists of expansion of the existing church, day care facility, and school onto two adjacent parcels of 1.2 and 1.62 acres, respectively. The north end of the 1.2-acre parcel of land contains an existing car wash driveway that is proposed as an ingress only driveway to the Chapel, for eastbound traffic on Bonita Road. Additional parking spaces will also be located on this parcel. The 1.62-acre parcel of land will include additional parking spaces and a grass play area. The total number of parking spaces will increase from 101 to 178. The existing two-story 4,900 square foot chapel/education facility will be converted entirely to classroom use. The basement will be used for daycare activities and the first floor will be used for K-6 education. The number of daycare students will remain at 95 and total number of K-6 students proposed is 150. A new sanctuary covering more than 10,900 square feet with seating capacity for 675, that includes a bookstore, office and classrooms, is proposed. The new sanctuary will replace an approved 6,500 square foot sanctuary with seating capacity for 400 that was never built. Proposed hours of operation are Sunday from 8 am to 10 pm, weekdays for school and daycare from 6:30 am to 6:00 pm, and weeknights from 6:00 pm to 10:00 pm. Sweetwater Authority will provide water service; sewer service will be provided by the City of Chula Vista, and Fire service will be provided by Bonita-Sunnyside Fire Protection District.	Neg	09/28/2001
2001081163	Orfila Water Well San Diego, City of --San Diego Proposal to drill a 14-inch diameter, 100-foot-deep water well located approximately 3/4 mile east of the Orfila Vineyards in the San Pasqual Valley.	Neg	09/28/2001

	Orange as a public park site. The project area has historically been mined for sand and gravel, but resources on-site are depleted and the site is presently utilized for green-waste recycling, rock crushing, and some agricultural uses. Extensive site preparation activities would be required in order to make the site suitable for residential development purposes.		
2000042075	California Regional Primate Research Center Improvement Projects University of California, Davis Yolo, Davis--Yolo The University of California, Davis (UC Davis) proposes the construction and operation of five improvement projects at the California Regional Primate Research Center (CRPRC) located in the west campus, west of the intersection of County Road 98 and Hutchinson Drive at UC Davis. The projects would provide increased infrastructure and facilities for expanded research, including: (1) the construction of stormwater drainage improvements including a stormwater detention basin to eliminate flooding at and adjacent to the CRPRC; (2) seven new outdoor field corrals and a stormwater retention basin to retain the stormwater runoff from the field corrals; (3) 24 new animal pens or "corncribs" for social housing of monkeys; (4) a new building and trailer to provide office space for the Brain, Mind, and Behavior Research Program (BM&B); and (5) a modular rodent holding facility for the Center of Comparative Medicine (CCM).	EIR	10/15/2001
2000121063	North Main Street Mixed Use Project Santa Monica, City of Santa Monica--Los Angeles The proposed building located at 2012-24 Main Street involves the construction of a mixed-use building with 136,694 square feet of floor area including 124,412 square feet of residential use and 12,281 square feet of commercial use. The proposed four-story, 35 foot building will provide a three-level subterranean parking garage with 288 parking spaces accessed from Bicknell Avenue. The 1.03 acre parcel is currently developed with an approximately 12,687 square foot vacant bakery and restaurant. The proposed building located at 2021-29 Main Street involves the construction of a mixed use building with 34,839 square feet of commercial use. The proposed three-story, 27 foot building will provide a two-level subterranean parking garage with 87 parking spaces accessed from Bicknell Avenue. The 0.41 acre parcel is currently developed with a surface level parking lot. The non-contiguous parcels are separated by Main Street, an 80 foot wide public right-of-way.	EIR	10/15/2001
1990010795	Supplemental EIR for Modification #3 to CUP - 4588 - Farmont Golf Club Ventura County Ventura--Ventura The project modification proposes to change an approved (but not constructed) 18 hole private golf club to a public golf course. The proposed change in use would increase the current permitted 35 rounds of golf per day to 130 rounds of golf per day. Staff analysis indicated that the proposed increased number of rounds would increase the number of rounds per year from the approved 12,775 rounds per year to approximately 50,000 rounds of golf per year. 2001082123	Big Lagoon Park Company Coastal Development Permit (CDP-00-28) Humboldt County Planning Department Trinidad--Humboldt A Coastal Development Permit for the approval of nine (9) new building sites to which existing cabins can be relocated. The relocation is necessary primarily due to the retreat of the bluffs overlooking the Pacific Ocean. The timing of the cabin relocations will be dictated by changes in actual site conditions. To accommodate this uncertainty, the Coastal Development Permit is to be issued for an initial five (5) year term. Modification of the permit term after 5 years may be necessary if the subject cabins have not been moved in that time period. The parcel is approximately 28 acres and is currently developed with 76 cabins, each with its' own nearby sewage disposal system. All of the cabins are served by two wells within the Park Company property. One new cabin is proposed at this time as a replacement for one that was demolished several years ago. A Special Permit is required for Design Review which will be handled as a "blanket permit" since the appearance, size and character of the individual cabins is not expected to change due to their relocation.	Neg	10/01/2001
2001082124	Santa Maria Museum of Flight Santa Maria, City of Santa Maria--Santa Barbara Relocation and expansion of the Santa Maria Museum of Flight. 26,324 square feet of building space built in two phases.	Neg	10/01/2001

2000012112	CalPERS Parking Project CalPERS Sacramento--Sacramento The Proposed Parking Project consists of the execution of a long-term ground lease and development of a surface parking area in the City of Sacramento to provide for supplemental parking to CalPERS employees that are currently located at the existing CalPERS Headquarters (400 P Street) facility and the proposed headquarters expansion currently under design (R Street Project).	SIR	10/15/2001
1999081106	Spieker Properties Office Development Orange, City of Orange--Orange The applicant, Equity Office Properties Trust, Inc., is requesting the City Council to take action on four applications to allow the construction of 4 new office buildings with attendant parking structures totaling approximately 1.2 million square feet.	NOD	
2000041119	Fish Passage Enhancement Below California State Highway 1 Bridge at Salsipuedes Creek Cachuma Operation and Maintenance Board Lompoc--Santa Barbara On California State Highway 1 below Salsipuedes Bridge, a cascade structure at the base of a concrete apron forms an impediment to fish migration during low flows. The project will modify this structure, using rebar and concrete to create a small pool midway up the cascade, thus redirecting low-volume flows toward the pool to form a migration path for steelhead/rainbow trout. The project has been modified to construct concrete structures instead of securing river rocks to the concrete apron, and to lower portions of the existing structure to enhance depth of flow through reconfigured low-flow pathway. These modifications to the existing structure will allow fish to migrate over the impediment during low-flow conditions and thus benefit from greater access to spawning grounds and improved habitat upstream.	NOD	
2001021033	Record of Decision/Remedial Action Plan, OU-3, IRP Site 1 Moffett Trenches and Crash Crew Burn Pit Department of Toxic Substances Control Tustin, Irvine--Orange Proposed project includes application of institutional controls, inspection and maintenance of the concrete containment wall and surface cover, monitoring of groundwater and surface water, monitoring of landfill gas, maintenance of the french drain system and associated sumps, periodic reviews of monitoring results, and preparation of a contingency plan.	NOD	
2001031042	Removal Action Workplan, Former EI Centro Toxic Substances Control, Department of EI Centro--Imperial The remedial design proposes to excavate contaminated soil and transport it to a permitted offsite facility; treat contaminated soil offsite using thermal desorption technology; backfill the excavated area with imported clean soil; compact the excavated areas to finished subgrade; pave the onsite areas with asphalt or concrete; and restore the underground utilities. 2001088451	Berger Residence Addition Fish & Game #3 Los Gatos--Santa Clara Relocation of the existing driveway gate and addition of new outfall into unnamed tributary to Ross Creek. Issuance of a Streambed Alteration Agreement Number R3-2001-0214 pursuant to Fish and Game Code Section 1603.	NOE	
2001088453	Lookout Ranch Wetland Restoration Project Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Modoc Restore degraded wetlands by modifying hydrology on lands currently used for cropping.	NOE	
2001088454	Larsen Elementary School Driveway Project Hueneme School District Oxnard--Ventura The Hueneme School District ("District") proposes to annex a parcel of real property which is adjacent to the District's Larsen Elementary School, remove an existing residential structure, add minor landscaping and construct driveway improvements to provide roadway frontage to enhance access to the school.	NOE	
2001088455	Maintenance Dredging Fish & Game #2 Quincy--Plumas Removal of silts, sands, and gravels from creek to restore contours and gradients. Materials to be deposited on pasture out of the following creek.	NOE	
2001088456	Bank Protection Fish & Game #2 Sacramento--Sacramento Placement of stone and concrete debris for slope stabilization.	NOE	
2001088457	YB 196 Weir Repairs Fish & Game #2 --Placer, Nevada Streambed Alteration Agreement R2-2001-188 for maintenance repair work to Nevada Irrigation District's YB 196 Weir that lies in the Bear River near Colfax. The project involves drawing down approximately a 300-ft section of the Bear River, removing damaged concrete and restoring the weir to its original configuration. All work will be performed from existing roadways and access trails. No excavation is necessary and no equipment will enter the streambed. Dewatering and fish rescue plans will be implemented. Shotcrete will be applied to the upstream and downstream sides of existing concrete to protect it from further erosion.	NOE	
2001088458	Stream Crossing Fish & Game #2 --Nevada 22' wide roadway construction using three 36" culverts and paving including rip-rap protection for upstream and downstream crossing of Rock Creek.	NOE

2001098002	<p>HHWVAR980103R--Three-year Variance Renewal for San Mateo County's Conditionally Exempt Small Quantity Generators (CESQG) Program Toxic Substances Control, Department of --San Mateo</p> <p>Variance for San Mateo County's participating CESQGs from hazardous waste manifesting and transportation requirements. The variance is limited to the acceptance of and transportation of up to 100 kg (220 lbs or approximately 27 gallons) of hazardous wastes by participating CESQG businesses. The collections provide appropriate and safe means of hazardous waste disposal. The variance is based on the evidence that: (1) Only qualified CESQG businesses participating in the household hazardous waste (HHW) collection program will use this variance; (2) The hazardous wastes are transported in non-leaking, intact, and properly packaged containers marked per federal Department of Transportation regulations; and (3) A copy of the variance will accompany all shipments.</p>	NOE	
2001098003	<p>HHWVAR010302--Three-year Variance for the City of Galt's Conditionally Exempt Small Quantity Generators (CESQG) Program Toxic Substances Control, Department of Galt--Sacramento</p> <p>Variance of the City of Galt's participating CESQGs from hazardous waste manifesting and transportation requirements. The variance is limited to the acceptance of and transportation of up to 100 kg (220 lbs or approximately 27 gallons) of hazardous wastes by participating CESQG businesses. The collections provide appropriate and safe means of hazardous waste disposal. The variance is based on the evidence that: (1) Only qualified CESQG businesses participating in the Household Hazardous Waste (HHW) collection program will use this variance; (2) The hazardous wastes are transported by the CESQG or by an employee in a vehicle operated by the CESQG to a Permit-by-rule (PBR) facility; (3) The hazardous wastes are transported in non-leaking, intact, and properly packaged containers marked per federal Department of Transportation regulations; and (4) A copy of the variance will accompany all shipments.</p>	NOE	
2001098004	<p>HHWVAR010504--Three Year Manifest Variance to Regional Solid Waste Association HHW Program Toxic Substances Control, Department of --San Diego</p> <p>Manifest variance for Regional Solid Waste Association's household hazardous waste (HHW) collection program from hazardous waste manifest requirements. The variance authorization is limited to the transfer of HHW from various collection sites to the permanent Permit By Rule (PBR) HHW collection sites using a bill-of-lading in lieu of a manifest. This variance provides for an appropriate and safe means of hazardous waste transfer. The variance is based on the evidence that: 1. A public agency sponsored and supervised program will use this variance; 2. The hazardous wastes are transported by a registered hauler; 3. The wastes are packaged and transported per federal Department of Transportation standards; and, 4. A copy of this variance will be carried in all vehicles transporting HHW under this variance.</p>	NOE

<u>Documents Received on Friday, August 31, 2001</u>			
2001098008	HHWVAR010502 Toxic Substances Control, Department of --San Diego Variance to the Regional Solid Waste Association from hazardous waste facility permit requirement. The variance authorizes the regional Solid Waste Association to conduct residential collections of HHW coincidental to their annual cleanup campaign. The collections provide appropriate means for the elderly and handicapped, and others unable to participate in the regular HHW collection program of disposing of hazardous waste. The variance is based on the evidence that : 1. The residential collections will meet strict standards and wastes are managed through the HHW collection program; 2. Only personnel trained in hazardous waste management shall handle or package hazardous waste; and 3. All collected wastes will be transported by a registered hazardous waste hauler to an authorized HHW permit-by-rule facility for further management.	NOE	
2001098009	HHWVAR980903R-Three-Year Manifest Variance Renewal for Tulare County Toxic Substances Control, Department of --Tulare Manifest variance for Tulare County Environmental Health Department's permit-by-rule (PBR) mobile household hazardous waste (HHW) collection program from hazardous waste manifest requirements. The variance is limited to the transfer of HHW from mobile PBR HHW collection events to a permanent PBR HHW collection facility. This variance provides for an appropriate and safe means of hazardous waste transfer. The variance is based on the evidence that: 1. A public agency sponsored and supervised program will use this variance; 2. The hazardous wastes are transported by a registered hauler; 3. The wastes are packaged and transported per federal Department of Transportation standards; and 4. A copy of this variance will be carried in all vehicles transporting HHW under this variance.	NOE	
2001098010	HHWVAR010802--Variance to Riverside County to Operate Three-day HHW Collection Events Toxic Substances Control, Department of Beaumont, Hemet, Corona, Riverside, Murrieta, Moreno Valley--Riverside Variance to Riverside County from hazardous waste facility permit requirements. The variance is limited to three-day hazardous waste (HHW) collection events. The collections provide appropriate means of disposing of hazardous waste. The variance is based on the evidence that: (1) The three day collections will be regulated similar to permit-by-rule "temporary household hazardous waste collection facilities"; (2) Only personnel trained in hazardous waste management shall handle or package hazardous waste; (3) All collected wastes will be manifested and transported by registered transporters to permitted hazardous waste recycling, treatment, storage or disposal facilities within 144 hours after each waste collection event has ended.	NOE
